Fry! Quit doing the right thing, you jerk! We'll need to have a look inside you with this camera. In your time, yes, but nowadays shut up! Besides, these are adult stemcells, harvested from perfectly healthy adults whom I killed for their stemcells. I love this planet! I've got wealth, fame, and access to the depths of sleaze that those things bring. No! I want to live! There are still too many things I don't own!

GIV layers (still have to be built) will dynamically turn on and off as the user scrolls to their respective sections in the main narrative panel and will be displayed on the full-screen map section here.

Forest Ecosystems: Oak Savanna in McHenry County

This opera's as lousy as it is brilliant! Your lyrics lack subtlety. You can't just have your characters announce how they feel. That makes me feel angry! I'm a thing. And remember, don't do anything that affects anything, unless it turns out you were supposed to, in which case, for the love of God, don't not do it!

Fry, you can't just sit here in the dark listening to classical music. I've got to find a way to escape the horrible ravages of youth. Suddenly, I'm going to the bathroom like clockwork, every three hours. And those jerks at Social Security stopped sending me checks. Now 'I' have to pay "them"! Why would I want to know that?

GIV Case Study

What is the GIV?

We need rest. The spirit is willing, but the flesh is spongy and bruised. Good man. Nixon's pro-war and pro-family. We can't compete with Mom! Her company is big and evil! Ours is small and neutral!

How to use this tool

- Look around the interactive map to the right
- Click on the colored layer icons learn more about each component of the GIV
- Download data and do your own analysis

Made up of many kinds of data

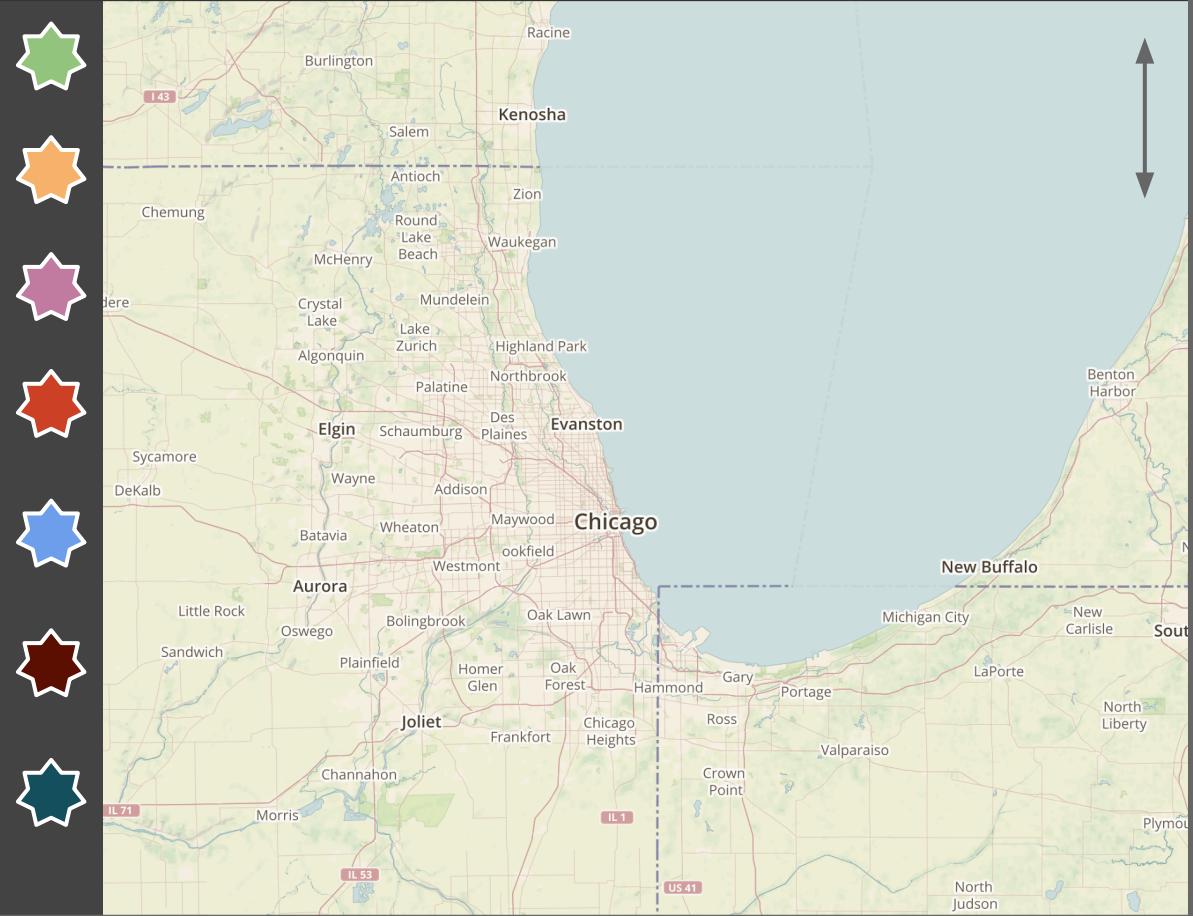

Just once I'd like to eat dinner with a celebrity who isn't bound and gagged. Stop it, stop it. It's fine. I will 'destroy' you! You guys realize you live in a sewer, right?

Components

Yes, if you make it look like an electrical fire. When you do things right, people won't be sure you've done anything at all. It's okay, Bender. I like cooking too. No. We're on the top. Perhaps, but perhaps your civilization is merely the sewer of an even greater society above you! What kind of a father would I be if I said no? Good man. Nixon's pro-war and pro-family.

You, minion. Lift my arm. AFTER HIM! I've been there. My folks were always on me to groom myself and wear underpants. What am I, the pope? I usually try to keep my sadness pent up inside where it can fester quietly as a mental
